

Abstract Submission Guidelines

Date of Meeting: 8-10 October 2026

Submission deadline: Friday 27 March 2026

Submission outcome: End of April 2026

Submission Guidelines

When composing your abstract submission, please adhere to the following:

- The maximum word count is 250 words (excluding title, authors and affiliations).
- Include **bolded** structured headings as follows: **Background, Methods, Results and Conclusions**. Some submissions may not lend themselves to this structure. Leave a blank line space in between each section. Subheadings should be followed by the text on the same line.
- Please **do not** include figures, tables or references within the submission.
- Numerical data and statistical analysis (as appropriate) must be presented in the abstract. Statements such as “*findings will be discussed*” or “*data will be presented*” are not appropriate and will result in rejection of the abstract.
- Abbreviations must only be used if defined immediately after the full word or if the phrase is used for the first time.
- Please ensure that the title or abstract text does not contain identifiable author information as the abstract will be blind reviewed by the Scientific Committee.

Review Criteria

- The Scientific Committee will judge all abstracts blind to author’s names and affiliations.
- Multiple abstracts from the same overall study are welcome but they need to be sufficiently different to justify multiple presentations.
- The highest-ranking abstracts will be selected for oral presentations (unless otherwise requested), the rest will be offered poster presentations unless judged not to be suitable for acceptance.
- Abstracts will be judged on the following criteria:
 - Novelty
 - Scientific validity
 - General interest
 - Quality of abstract presentation
 - Relevance to the FFN vision and mission

Other Information

- All presenters of proposed abstracts accepted for presentation at the Fragility Fracture Network European Regional Meeting 2026 in Edinburgh are expected to register for the Meeting, present material, and be available to delegates for further discussions.
- Registration, travel and accommodation costs will be the responsibility of the presenters. Unfortunately, these costs cannot be met by the Fragility Fracture Network.
- The Scientific Committee's decision on proposed abstracts accepted for inclusion in the FFN European Regional Meeting will be final.
- If eligible, please see Young Investigator's Award.
